EDUCATION

- RCC Institute of Information Technology (MAKAUT)** Kolkata, West Bengal
B.Tech in Computer Science and Engineering Sep 2023 – Present
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering

EXPERIENCE

- DevrelSquad** Remote
Software Developer Engineer Intern Jul 2025 – Mar 2026
 - Assisted in the development and maintenance of web applications by revamping and redesigning multiple high-traffic product pages with polished, modern UI — sharpening visual hierarchy and boosting user engagement
 - Collaborated with the senior development team to integrate **AI-powered enhancements** into existing product features, elevating user experience and delivering intelligent, context-aware functionality
 - Spearheaded a full-scale **codebase refactor**, writing clean, efficient, and well-documented code by decomposing monolithic logic into clean constants, enums, and config files — dramatically improving modularity and long-term maintainability
 - Participated in code reviews and contributed to team discussions around architecture and best practices, improving overall code quality
 - Executed a comprehensive **SEO overhaul** — optimizing metadata, content structure, and discoverability signals — driving a **5x surge in organic users within 2 months**
 - Diagnosed and resolved critical miscalculations in the **lead generation pipeline**, testing and debugging the web application to ensure functionality and data accuracy
- PayZoll** Remote
Web Developer Intern Feb 2025 – Apr 2025
 - Assisted in the development and maintenance of web applications by migrating template components from **Octo SDK** to **Next.js** with **TypeScript**, maintaining proper typing and code documentation throughout
 - Identified performance bottlenecks in legacy frontend architecture, troubleshooting and resolving issues that hindered user retention — reducing load times by **40%** and increasing Google Lighthouse scores to **95+**
 - Wrote clean, efficient, and well-documented code by modernizing the frontend architecture for better type safety and maintainability
 - Supported the team in project estimation activities and contributed to planning the frontend migration strategy

PROJECTS

Beacon — Secure Communication | *Next.js, Firebase, TypeScript, Gemini* | [\[Code\]](#) [\[Live\]](#)

An enterprise-grade secure communication web application engineered to eliminate vulnerabilities in sensitive document transmission. Features **AES-256 encryption**, **PIN-based multi-factor authentication**, and a real-time monitoring dashboard ensuring end-to-end data protection. Built with clean, well-documented code and governed through a rigorous **Role-Based Access Control (RBAC)** system, guaranteeing **100% data privacy compliance**.

BitShred — Data Sanitization GUI | *Next.js, TypeScript, Python* | [\[Code\]](#) [\[Live\]](#)

A powerful data sanitization web application combining a sleek **Next.js** and **TypeScript** frontend with a robust **Python** backend executing advanced cryptographic data overwriting algorithms. Developed with a focus on modularity and maintainability — generating detailed audit reports post-sanitization to provide verifiable proof of compliance and airtight data security.

SKILLS SUMMARY

- Languages:** Python, Java, C++, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- Frameworks & Libraries:** React.js, Next.js, Flask, Django, Node.js, Express.js, Tailwind CSS
- Tools & Platforms:** Git, GitHub, Docker, Azure, PostgreSQL, MongoDB, Firebase, Supabase, Postman, Vercel
- Core Concepts:** DSA, System Design, REST APIs, Code Reviews, Web Application Testing & Debugging, Agile Collaboration

HONORS, AWARDS & LEADERSHIP

- Grand Finalist** – Smart Bengal Hackathon 2025 (Team Leader, Top 30/500+ teams)
- Status Code 1** – Team Lead for decentralized voting platform - 2024
- Top 20 Contributor** – JWOC Winter of Code (Ranked out of 100+ participants) - 2024
- Web Development Lead, GDG RCCIIT** – Developed responsive websites for the club
- Tech Lead, ACM RCCIIT** – Organized technical workshops & hackathons
- Web Developer, Student Welfare Community RCCIIT** – Developed multiple responsive websites for college events (2025)
